4 Channel H.264 Standalone DVR with 4 IR Cameras

NetCamera Ethernet System 2 Kit

NetCamera Ethernet System is a complete solution (with standalone DVR and 4 IR Cameras) for local/remote video surveillance, designed to operate in every working environment (domestic or SoHo).
DVR is able to playback locally, on the connected monitor (VGA or RCA), up to 4 channels and is able to record (always, motion detection, manual, time schedule) on the internal 2,5" HDD, using H.264 codec.
The Sony CCD sensor (1/4"), able to work also with a low light intensity of the environment, provides clear and tidy videos with real colors in each situation (28 IR LEDs down to 0 Lux up to 12 mt). NetCamera uses ethernet cables for the connection to cameras (power and video/audio are integrated onto the same cable, supporting category 5/5e up to 100 Meters) it allows to migrate in the future the infrastructure toward IP, without further costs of wiring, safeguarding the investment.
Finally, it can be remotely managed and controlled at any moment and place, in a simply and intuitive way, via PC or notebook connected to the Internet (or Intranet) by using any web browser or mobile devices (iPhone, iPad or Android).
